Come join us to learn about ReNew Power's selective internship program, the "Global Green Scholars Program", an exciting 10-week program in the New Delhi, India area in summer 2020.

Global Green Scholars Program is one of the flagship programs at ReNew Power. The program was launched in 2017 with an aim to attract bright and passionate talent from top universities across the globe, who are interested in renewable energy and sustainability. Aimed at promoting diversity and exchange of ideas, the program is designed for students with stellar academic and co-curricular record. This is a fully-funded program and the duration is 10 weeks from mid-June till mid-August. At this information session, you will learn about the program itself, the industry, and the application process. We are happy to answer any questions you may have as well. The session will be conducted by Anurit Kanti (Sustainability Team).

About ReNew Power

ReNew Power Private Limited is India’s largest renewable energy IPP (Independent Power Producer) in terms of total energy generation capacity.

We reached 1 GW of renewable energy capacity in April 2016 and approximately doubled it in one year to achieve a total operational capacity of 1.99 GW. In Oct 2019, we became the first clean energy company in India to cross 5 GW of operational capacity.

We develop, build, own and operate utility scale wind and solar energy projects as well as distributed solar energy projects that generate energy for commercial and industrial customers.

ReNew has a strong track record of organic and inorganic growth having nearly doubled its operational capacity in each of the last three Fiscal Years.

ReNew’s broad base of equity investors include Goldman Sachs, JERA, ADIA, CPPIB, GEF SACEF India, and ADB (subsequently exited).
